

Dear Coach,

My name is Steven Prinz and I manage PT Ammo alongside my family out of East Haven, CT. We greatly appreciate the opportunity to offer your team and the USA Clay Target League ammunition for this upcoming Spring Season.

We are opening our Youth program on November 1st, 2022 and will keep our program open all year long. Ammunition is guaranteed to be delivered before the start of the Spring season, though it will typically be delivered 4-8 weeks after payment is received. We try to keep 2-3 containers in stock at a time, so depending on how soon your order is placed, you may receive ammo far earlier than 4-8 weeks. Below, I will explain our products and order process in more detail. Afterwards, I will explain our shipping and tax exemption policies.

Lastly, I included a testimonial from Bill Hoffman, a coach from the Dexter Trap Team. He conducted a test of PT Ammo using our 1330 FPS shells. **Please note that all PT Ammo shells being sold in the future will be 1145-1200 FPS.**

Testimonial and Testing from Bill Hoffman

“Results of what I found after shooting it: High Level, it shoots straight and breaks targets.

Shell Construction - Clean and well-made hulls. I didn't cut any open but expect that it would be consistent with other European shells for Powder, Shot and Wads. (IE Nobel Sport, Fedder, Clever). Overall, very satisfied

Recoil - Average for the load

Overall, these loads shot well and did the job. My opinion, an entry level shooter would have no problem with this ammo.” - Bill Hoffman, Dexter Trap Team
